Three Million Auto Tires made— —by GOODRICH, in year 1915

STUDY the Price-List publicly printed below. Compare with the List-Prices of other Tires made in LESSER Volume. Observe that competing Prices are higher in almost the exact proportion that VOLUME of production is smaller. This, when Quality approaches the Goodrich Standard. Cut our 1915 Tire Output (of 3,000,000 Auto and Truck Tires) to One-third, and it would still far exceed the Average of all Competing Makes or Brands. But, that huge reduction in Volume MIGHT result in every Tire we made costing you One-third MORE than present prices. They would not,—and could not,—be BETTER Tires, at this necessarily higher-cost to us, and higher-price to you. Because,—Goodrich Tires are not made "up to a price,"—nor "down to a price."

WE, first of all, make the BEST Fabric Tires that our 47-year Experience in Rubber-Working,—our huge Purchasing-Power, and the most Advanced Equipment, renders possible. Then we let Cost fall where it will. To that Cost we add a moderate, and fair, Profit for Ourselves and for our Dealers. Then we let VOLUME rise,—as it will. The more Tires we Make, the LESS each Tire COSTS us to produce,—and the less it costs YOU to buy them. The more Tires we Sell, the less profit, per Tire, WE NEED, for dividends. The more Tires we make, the better we KNOW HOW to make them,—the more we have at Stake on Quality,—and Satisfaction to Consumers. And,—because of all this,—The BEST Fabric Tires that Skill,—Experience,—Good-Faith, and Maximum Volume, can build,—are now available to YOU at the VERY MODERATE Fair-List Prices here quoted. Why pay more for ANY Fabric Tire?

Goodrich "Fair-List" Prices

NOTICE.—These Tires are as perfect as Fabric Tires can be made. But, should any dissatisfaction whatever arise, with any Goodrich Tire, its Owner is invited, and REQUESTED, to take the matter up promptly with us,—the Makers. He will find that Fair, Square, and LIBERAL treatment will always be extended, on all proper adjustments.
